

# IEEE TRANSACTIONS on DIELECTRICS and Electrical Insulation

December 2018

Volume 25

Number 6

ITDEIS

(ISSN 1070-9878)

Reviewers of TDEI during the period of 1 October 2017 to 30 September 2018..... iii-v

## EDITORIAL

Year in Review .....E. Cherney 2039

## FUNDAMENTALS

Investigation of Vacuum Gap Breakdown under Microsecond Pulses .....X.-D. Qiu, J.-C. Su, Y. Zhang, B. Zeng, M. Li, J. Cheng, L. Zhao, X.-D. Xu, B.-X. Yu and R. Li	2040–2048
Modeling the Development of Low Current Arcs and Arc Resistance Simulation .....X. Zhang, A. Bruce, S. Rowland, V. Terzija and S. Bu	2049–2057
Effects of Nanosecond Pulse Voltage Parameters on Characteristics of Surface Charge for Epoxy Resin .....F. Kong, S. Zhang, H. Lin, C. Ren and T. Shao	2058–2066
Surface Treeing and Segmented Worm Model of Tracking Behavior in MgO/Epoxy Nanocomposites.....K. Wu, Z. Wang, C. Zhao, Y. Huang, J. Li and S. Li	2067–2075
Effects of Thermal Properties on Tracking and Erosion Resistance of Micro- ATH-AIN/BN Filled Silicone Rubber Composites .....M. Tariq Nazir, B. T. Phung, S. Yu and S. Li	2076–2085
Characteristics of Positive Streamer in Air: Effects of Low Temperature.....C. Wang, H. Mei, W. Tang and L. Wang	2086–2092
Numerical Simulation of the Electric Field Distribution in Point-Barrier-Plane Air Gaps.....M. A. Benziada, A. Boubakeur and A. Mekhaldi	2093–2102
Failure of Nano-Modified Oil Impregnated Paper Under Repeated Impulse Voltage: Effects of TiO <sub>2</sub> Nanoparticles on Space Charge Characteristics .....P. Sun, W. Sima, X. Jiang, D. Zhang, J. He and Q. Chen	2103–2111
Simulation of Positive Streamers in Atmospheric Air by a Macroscopic Model with a New Branching Criterion.....S. Chen, F. Wang, Q. Sun and R. Zeng	2112–2121
Prediction on Effective Permittivity of 0-3 Connectivity Particle/Polymer Composites at Low Concentration with Finite Element Method .....S.-L. Zhong, Z.-M. Dang and J.-W. Zha	2122–2128
Correlation of Free Space Length and Surface Energy of Epoxy Nanocomposites to Surface Tracking .....M. Suchitra, N. M. Renukappa, C. Ranganathaiah and J. Sundara Rajan	2129–2138
Pressure Wave Propagation Method for Space Charge Measurement in Coaxial Geometry .....Y. Sun, Y. Zhang, S. Hole, Z. Zhu, L. Yang, C. Guo, Z. Cao, E. Yu, X. Zheng, F. Zheng and Z. An	2139–2146
Streamer and Leader Breakdown in Air at Atmospheric Pressure in Strongly Non-Uniform Fields in Gaps Less than One Metre .....M. Seeger, T. Votteler, J. Ekeberg, S. Pancheshnyi and L. Sánchez	2147–2156
Distribution of Polymer Surface Charge under DC Voltage and Its Influence on Surface Flashover Characteristics .....Q. Xie, S. Liang, K. Fu, L. Liu, H. Huang and F. Lü	2157–2168
A Trap Regulated Space Charge Suppression Model for LDPE Based Nanocomposites by Simulation and Experiment .....F. Tian and C. Hou	2169–2177
Effect of Morphological Deformation on Barriers to Charge Injection at the Interface of Copper and Polyethylene.....M. El-Shahat, A. Huzayyin and H. Anis	2178–2182
Electrical Tree Growth and Partial Discharge in Epoxy Resin Under Combined AC and DC Voltage Waveforms .....I. Idrissu, S. M. Rowland, H. Zheng, Z. Lv and R. Schurch	2183–2190
Characterization of the Dielectric Properties of Biological Tissues and Their Correlation to Tissue Hydration .....D. A. Pollacco, L. Farina, P. Schembri Wismayer, L. Farrugia and C. V. Sammut	2191–2197
Novel Double-Layer Boundary Element Method for Electrostatic Analysis .....Z. Andjelić, K. Ishibashi and P. Di Barba	2198–2205
Dielectric Breakdown Study of a Nanofluid Based on Goethite Nanoparticles .....T. Tobias, M. Rajnak, P. Kopcansky, M. Timko, F. Agresti, S. Barison, B. Dolnik and M. Rajnak	2206–2211
Prolonging Electrical Lifetime of Mesogenic Epoxy Based Alumina-Mica Composite Sheet: Optimization of Mica Content by Electrical Tree Progress Simulation .....T. Tanase, T. Kato, S. Tanaka, A. Sano, H. Kojima, K. Fukushima and Y. Takezawa	2212–2219
Mapping of Discharge Channels in Void Creating Effective Partial Discharge Area .....M. Florkowski, B. Florkowska, M. Kuniewski and P. Zydron	2220–2228
Relaxation Processes and Structural Transitions in Poly(vinylidene fluoride-trifluoroethylene-chlorofluoroethylene) Relaxor-Ferroelectric Terpolymers as Seen in Dielectric Spectroscopy.....T. R. Venkatesan, A. A. Gulyakova, P. Frübing and R. Gerhard	2229–2235
Characterization of Additively Manufactured Cellular Alumina Dielectric Structures .....R. Dumene, G. Earle and C. Williams	2236–2240
Partial Discharge Characteristics at Ultra-Short Voltage Risetimes .....T. J. Å. Hammarström	2241–2249
Modelling and Simulation of PD Characteristics in Non-Conductive Electrical Trees .....Z. Lv, S. M. Rowland, S. Chen and H. Zheng	2250–2258
Different Microscopic Features of AC and DC Electrical Trees in Insulating Polymer .....S. Zhang, Y. Yang, Q. Li, J. Hu, B. Zhang and J. He	2259–2265

## APPLICATIONS

Application of UHF Method for Partial Discharge Source Location in Power Transformers.....D. Dukancic	2266–2278
Localization of Partial Discharge in Transformer Oil Using Fabry-Pérot Optical Fiber Sensor Array .....C. Gao, W. Wang, S. Song, S. Wang, L. Yu and Y. Wang	2279–2286
Electrical Tree Initiation in XLPE Cable Insulation under Constant DC, Grounded DC, and at Elevated Temperature.....Y. Liu, X. Cao and G. Chen	2287–2295
Flashover Process and Leakage Current Characteristics of Insulator Model under Desert Pollution .....D. Maadjoudj, A. Mekhaldi and M. Teguar	2296–2304
Investigation of Explosive Electron Emission Sites on Surface of Polished Cathodes in Vacuum .....X.-D. Qiu, J.-C. Su, Y. Zhang, B. Zeng, L. Zhao, R. Li and J. Cheng	2305–2312

**(CONTINUED)**

High Sensitivity Detection of Partial Discharge Acoustic Emission within Power Transformer by Sagnac Fiber Optic Sensor .....	<i>S. Qian, H. Chen, Y. Xu and L. Su</i>	2313–2320
Pulsed Flashover Across Insulators in Vacuum .....	<i>G.-J. Zhang, G.-Q. Su, B.-P. Song and H.-B. Mu</i>	2321–2339
Effects of Thermal Ageing on Moisture Equilibrium in Oil-Paper Insulation .....	<i>D. Wang, L. Zhou, X. Li, Y. Cui, H. Li, A. Wang and W. Liao</i>	2340–2348
Nanoparticle Dispersion and Distribution in XLPE and the Related DC Insulation Performance .....	<i>S. Wang, P. Chen, S. Yu, P. Zhang, J. Li and S. Li</i>	2349–2357
Effect of Modified ZnO on Electrical Properties of PP/SEBS Nanocomposites for HVDC Cables .....	<i>J.-W. Zha, J.-F. Wang, S.-J. Wang, Q. Qin and Z.-M. Dang</i>	2358–2365
Space Charge Characteristics in 160 kV DC XLPE Cable under Temperature Gradient .....	<i>X. Wang, C. Chen, C. Cheng, Y. Wu, K. Wu, M. Fu, S. Hou and B. Hui</i>	2366–2374
Polymer-Metal Layered Structures for Improved Energy Storage Density .....	<i>M. Raquibuzzaman, B. Ray, T. B. Boykin and R. S. Gorur</i>	2375–2379
Analysis of Creeping Discharges on Oil-Impregnated Pressboard under Combined AC and DC Voltages .....	<i>X. Li, J. Li, T. Jiang, Y. Wang and Z. Huang</i>	2380–2388
Effect of Moisture Content on the Production and Partitioning of Furfural in Oil-Paper Insulation .....	<i>D. Feng, L. Yang, R. Liao, L. Zhou and Y. Lin</i>	2389–2397
Electro-Convection in Natural Ester Based Transformer Fluid .....	<i>M. Jaroszewski, A. Beroual and M. Dzedziul</i>	2398–2404
Effects of Graphene Nanoplatelets on Space Charge and Breakdown Strength of PP/ULDPE Blends for HVDC Cable Insulation .....	<i>B. X. Du, Z. H. Hou, J. Li and Z. Li</i>	2405–2412
Study of the Influence of Nonlinear Parameters on the Efficiency of a Resistive Field Grading Tube for Cable Termination .....	<i>S. Boucher, R. Chambard, M. Hassanzadeh, J. Castellon and R. Metz</i>	2413–2420
Characterization of Dielectric Properties and Conductivity in Encapsulation Materials with High Insulating Filler Contents .....	<i>D. Cornigli, S. Reggiani, A. Gnudi, E. Gnani, G. Baccarani, D. Fabiani, D. Varghese, E. Tuncer, S. Krishnan and L. Nguyen</i>	2421–2428
Materials and Applications of Polymer Films for Power Capacitors with Special Respect to Nanocomposites .....	<i>M. Streibl, R. Karmazin and R. Moos</i>	2429–2442
Investigation on Charge-Carrier Transport Characteristics of Transformer Oil-Based Nanofluids .....	<i>Y. Li, M. Dong, C. Zhang, J. Xie, M. Ren, J. Zhou and J. Dai</i>	2443–2451
Surface Charging and Its Effects on DC Flashover Strength of Insulating Materials .....	<i>M. Amer, J. Laninga, W. McDermid, D. R. Swatek and B. Kordi</i>	2452–2460
Location Attempt of a Degraded Portion in a Long Polymer-Insulated Cable .....	<i>Y. Ohki and N. Hirai</i>	2461–2466
<b>DIELECTRIC LETTERS</b>		
Detection of Abnormality Occurring Over the Whole Cable Length by Frequency Domain Reflectometry .....	<i>Y. Ohki and N. Hirai</i>	2467–2469
Author Index .....		2470
Subject Index .....
